# Declaration of California Proposition 65 Compliance

P/N: All of products

Taoglas Ltd., hereby declare that our product(s) contain(s) chemicals known to the State of California to cause cancer and/or birth defects or other reproductive harm.

This Act, commonly known as Proposition 65 (Prop 65), establishes a list of chemicals which the state of California's risk assessment process has determined to present a risk of cancer, birth defects or other reproductive harm.

To date, we have identified the following listed chemicals as being contained in our product(s): nickel (in plating), carbon black (coloration, plastic housing), lead (used in very small amounts in brass and inner solder), and tetrafluoroethylene (commonly called teflon, used as insulation/dielectric in wires).

We are providing warnings in an excess of caution and they should not be taken as an admission that a warning is required. We have no reason to believe that normal handling of our products will result in any significant risk, even assuming lifetime exposure, or exposure at 1000 times the level that results from handling our products.

For more information about Prop 65 visit the Office of Environmental Health Hazard Assessment and for a list of elements listed under Prop 65 visit: <https://oehha.ca.gov/proposition-65>. This declaration is issued based on our current level of knowledge. Since conditions of use are outside our control, Taoglas Limited makes no warranties, express or implied, and assumes no liability in connection with the use of this information.

Yours sincerely,

**Taoglas Limited**
